To: All Emergency Management Performance Grant Sub-Recipients
From: Ron Walker
Director, State Emergency Management Agency

Subject: Emergency Management Performance Grant Compliance

This Information Bulletin (IB) provides general guidance to Emergency Management Performance Grant (EMPG) sub-recipients on NIMS, training and exercise, and resource tracking compliance expectations. This Information Bulletin replaces the previous Information Bulletin released in 2017.

National Incident Management System Compliance

In order to receive federal funding through the Emergency Management Performance Grant (EMPG), the local jurisdiction or municipality must show the local ordinance which states the municipality uses the National Incident Management System (NIMS) as the incident management structure to respond to disasters. A county cannot enforce city ordinances and a city cannot enforce county ordinances, therefore if there is an EMD operating for a city municipality inside of a county EMD operation, they must both show proof of compliance through submission of ordinance establishment within the grant application.

Training and Exercise Plan

In order for a jurisdiction to receive federal funding through EMPG, EMPG funded personnel must complete the following FEMA courses; IS 100, IS 120, IS 200, IS 230, IS 235, IS 240, IS 241, IS 242, IS 244, IS 700 and IS 800 within 12 months from the date of hire. In addition, all EMPG funded personnel fall into Category 4 of the Training Matrix in Attachment 1. The additional courses are G191, IS 2200 and E/G 2300. All EMPG funded personnel must complete the additional training within 24 months from date of hire. Previous to 2020, all EMPG funded personnel who completed G/IS 775 will be grandfathered in as replacement for the IS 2200.

Exercises

The State requires that all EMPG funded personnel must participate in two exercises per calendar year, of which one must be operations based. Discussion based exercises include seminars, workshops, table-tops and games. Operations-based exercises include drills, functional, and full-scale. Jurisdictions must identify planned quarterly activity to meet these requirements in the EMPG application. The Exercise sign-in sheets and after action reports must be completed and submitted to SEMA in order to receive the exercise credit.

Resource Inventory Management

In order to receive federal funding through EMPG, the local entity must input all EMPG funded response assets in the State tracking system. The State has purchased Salamander for documenting and tracking federally purchased resources. This system will be given free of charge to the local EMDs.

For the purposes of the **Required Trainings**, the categories of responders are those assigned during an incident, not necessarily normal day-to-day operations. The Categories are;

Category 1, Emergency Responders are responsible for going immediately to the scene of an incident to provide emergency services. These individuals may be fire fighters, EMT/Paramedics, law enforcement personnel or volunteers.

Category 2, First Line Supervisor is an individual manning the response with a span on control of one resource. These individuals could be single resource unit leaders or field supervisors.

Category 3, Mid-Level Supervisor is an individual manning the response with a span of control of multiple resources. These individuals may include strike team leaders, task force leaders, unit leaders or division/group supervisors.

Category 4, Senior Level Response Manager/ Multi-Agency Coordination System (MACS) Personnel are individuals who work inside an EOC or MAC is and whose span of control is multiple resources and maintains the knowledge-base to make strategic level decisions for the response as a whole. These individuals may include command and general staff, department heads, and emergency managers.

Categories 5, Elected Officials are the individuals responsible for ensuring the public safety and welfare of the people of that jurisdiction.

From: James Remillard
Interim Director, State Emergency Management Agency

Subject: FY20 Emergency Management Performance Grant- Supplemental Information Bulletin

This Information Bulletin (IB) provides sub-recipients of the FY20 Emergency Management Performance Grant (EMPG) guidance on the EMPG supplemental provided through the CARES Act passed on March 27, 2020. The CARES Act provided \$100m to the States to prepare for, mitigate and respond to the novel coronavirus (COVID-19). The funding for States is based on a formula, and Missouri is set to receive \$1,859,809.

The EMPG Working Group, which is comprised of 9 MOEMA representatives from each region and 9 EMDs that sit as primary chair for their profession on the RHSOC, met via conference call on Wednesday, April 22, 2020 to discuss possible funding ideas to utilize the supplemental. After discussions from the group, it was unanimously agreed upon that the supplemental will be used to extend the period of performance for the FY20 EMPG. All expenses for personnel, supplies and operating expenses, equipment and travel from February 1, 2020 through July 31, 2020 will be applied to the supplemental funding as you all have worked diligently to prepare for, mitigate and respond to COVID-19 and the impacts to your communities. All expenses for January 2020, and then August 1, 2020 through June 30, 2021 will be applied to the regular FY20 EMPG.

SEMA will utilize the formula already in place for EMPG to extend the funding to 18 months from the previous 12 months. This decision will allow SEMA to more closely align with when funding is received from FEMA, and thus eliminate the wait period locals typically experience in terms of awards and reimbursement. The FY20 EMPG as well as the supplemental both have a 50% match requirement.

With that being said, SEMA will work diligently to provide your anticipated funding letters over the next few weeks. In terms of submitting claims and status reports, the dates will be the same. The exercise requirement of 2 exercises, with one being operational, will now extend to June 30th, 2021. Training requirements will remain the same unless there are extenuating circumstances.

Should you have any questions, please don't hesitate to call your grant specialist.
